

Phone Consultation Guidance

3 steps informing you how best to recommend the Healthhub apps to patients during phone consultations:

- 1) Explain to them why the app is important, and why they will find it useful.
- 2) Explain how the app functions, and how to download it.
 - Free on Google Play and Apple Store
- 3) Tell them that you will discuss how they are getting on with the apps during their next consultation.
 - This will help inform you how best to support your patient in their disease management.
