Initial Home Oxygen Risk Mitigation Form (IHORM) and Home Oxygen Consent Form (HOCF) for new patients only.

BOTH FORMS MUST BE COMPLETED AND SIGNED BEFORE OXYGEN CAN BE INSTALLED. DO NOT SEND FORMS TO SUPPLIER FORMS WILL BE PLACED IN PATIENT NOTES THERE ARE CONFIRMATION BOXES ON THE HOME OXYGEN ORDER FORMS.

Oxygen can pose a risk of harm to the user and others in the event of fires, falls and inability to use complex equipment. The initial identification and onward communication of these risks is the responsibility of the health care professional ordering the oxygen and remains so until that prescription ceases or is superseded. The table below reflects risk factors that are based on evidence of real life serious and untoward incidents, 90% of which are smoking and e-cigarette/charger related.

The Initial Home Oxygen Risk Mitigation (IHORM) is to be completed in conjunction with the Home Oxygen Consent Form (HOCF) prior to oxygen being ordered from the oxygen supplier via the Home Oxygen Order Form (HOOF). It is the responsibility of the registered health care professional who is gaining consent to complete and add the IHORM with the HOOF and HOCF to the patient's notes. If all documents are not confirmed as being completed in full the Home Oxygen Order cannot be fulfilled.

If the risks identified on the IHORM indicate significant levels of risk the patient should be discussed directly with the local Home Oxygen Service or Clinical Oxygen Lead for a full risk assessment prior to oxygen being ordered as recommended in the British Thoracic Home Oxygen Guidelines June 2015. Regardless of risk or diagnosis all adult patients should be referred the Home Oxygen Assessment and Review Service (HOS-AR) for the team to determine next steps if deemed relevant.

If any responses below fall within a shaded box, please refer to the Required Action column and supporting notes.

All actions should be explained to the patient and why they are being taken in line with service contracts. Ensure that both verbal and written information has been given to the patient or their representative.
